Dear Ms Henney,

I would like to support a petition by the Center for Food Safety, which calls for the following:

1. Test all Genetically-modified foods for long-term safety before allowing any GE foods to be used for human consumption.
2. Most importantly, label all GE foods on the market. I buy organic foods whenever possible, but when I cannot do so I need to make a decision on the next safest food to buy.

On my last visit back to my hometown in South Dakota I was alarmed to see the quantity of GE crops planted. Please insure the safety of our food supply.

Sincerely,

Richard Kemnitz

Cc: Senator Ted Stevens  
Senator Frank Murkowski  
Representative Don Young
